SUSSEX WOODCRAFT SOCIETY

CLASSES AND RULES

Introduction

All pieces submitted must be predominantly wood or wood based materials where the grain can quite clearly be seen, except in categories 02 and 12. **Embellishments and use of metal will be allowed but must be kept to a minimum.**

Twigs and driftwood may be used **but will not be judged**. Any item mounted on a board for display should be finished to a reasonable standard as a poor looking backing board may detract from the finished article and possibly an award!

Best in Show will be awarded The SWS Shield

01 Hand Carving in the Round (Winner will be awarded Quantrell Salver)

Any three-dimensional carving where the main subject is the object of the carving in wood or wood based product.

02 Painted Carvings

Any carving which has been painted, dyed, gilded or where colour has been added .

03 True Relief, Applied or Pierced Carving (Winner will be awarded Les Simmonds Cup)

Any carving in wood or wood based products and properly finished in the direction from which it is intended to be viewed.

True - made from one piece, or pieces glued as one before carving.

Applied - mounted on a solid wood or wood-based material panel, made from one piece, or pieces glued as one before carving. Alternatively pieces individually carved and then place onto the backing board

04 Abstract Carving

Any carving in natural wood or wood based product on any subject which is intended to convey the feel of the title of the piece. **(Please produce a label with the name of your piece for judging)**

05 Woodturning with or without support of a Tailstock Centre(Winner will be awarded The Gavin Ryder Trophy)

Any item or group of work turned with the grain running in any direction on a faceplate or a chuck with or without using a secondary support. ie. bowls fruit etc.

06 Spindle Woodturning

Any item, pair or set, primarily turned between centres
ie. Chair legs, stretchers, Lace Bobbins, rolling pins etc.

07 Assembled or Group Woodturning

Any item made from an assembly of pieces produced by either or both methods listed in classes 06 and 07 above (face plate and between centres).
